

Station Tours

The Louisville Fire Protection District will set up visits and station tours designed to accommodate your group's specific needs and interests.

Please contact our public education specialist by email at PublicEducation@louisvillefire.com

You may also call 303-666-6595, Extension 312 and leave a message for a coordinator.

Station tours will be held during times when critical functions and trainings are not in session.

- Station tours require a minimum of two weeks notice to schedule. Please fill out a [request form](#) and submit for scheduling.
- We prefer children be kindergarten/pre-k age or older (4-5yrs+) for educational activities. This is due to the child's developmental age and ability to take in and use the safety information. We can however accommodate small groups of younger children accompanied by parents to view fire trucks.
- Unfortunately we are not able to accommodate birthday parties at the fire station.
